

## Northern California

	<b>Beta Engineering</b> betaengineering.com	Turnkey substations, switchyards, and transmission lines to 500kV
	<b>EDM</b> edmlink.com	Phase measurement tool for identifying phase and phase angle anywhere in the field on your power system.
	<b>Myers</b> myerspwerproducts.com	5-38KV Metal-Clad Switchgear, Power Houses. Telecom Power Systems for Wireless and Wireline.
	<b>Scott Engineering</b> scott-eng.com	Padmount capacitor banks, distribution switchgear and metering cabinets, substation capacitor banks and pole line hardware.
	<b>Schweitzer Engineering Labs</b> selinc.com	SEL designs, manufactures, supplies, and supports products and services for power system protection, monitoring, control, automation, and metering. Solutions include comprehensive generator and transmission protection, fault indication, distribution automation and control systems, communications for critical infrastructure, and complete turn-key systems.
	<b>Southern States, LLC</b> southernstatesllc.com	Group Operated Switches, Ground Switches, Motor Operators, Hookstick Operated Switches, Circuit Switchers, Capacitor Switches, Power Fuses and Switch-Fuse Combinations.
	<b>Tavrida Electric</b> www.tavrida.com	Manufactures vacuum circuit breakers and reclosers for indoor and outdoor applications, and switchgear based retrofit solutions.
	<b>Trinetics</b> trinetics.com	Vacuum & Oil Switches, Capacitor Banks & Controls, Padmount Switchgear, Distribution Enclosures, Lighting Control
